

# STUNNING DISPLAYS

Indoor viewing offers all the options, writes **Ann McRae**

**A** unique indoor pool display centre is located at O'Connor to provide viewing comfort year round for customers. Barrier Reef Pools won a gold award from the Swimming Pool and Spa Association for their innovative display centre and then went on to win a national bronze award in the same category. Three separate and differently styled swimming pools are situated indoors with all the trimmings and options available for viewing at a traditional outdoor display centre.

A wall-mounted big screen also provides views of 100 other pools designs to add to the available selection. The biggest pool on show has a black shimmer interior with black mosaic waterline tiles and charcoal granite paving bordered with an insert of timber decking. A water feature wall of black ribbed granite trickles water from the top and measures 2.4m x 2.2m. The pool itself measures 6m x 3m and is a fibreglass design called Monaco. Lighting in the pool, above the water wall feature and recessed

into the marine ply-lined ceiling, demonstrates to buyers the endless lighting possibilities around swimming pools. The silver award for the best display pool this year went to Exclusive Pools with an entry from a Signature Custom Homes display home in Attadale. This geometric concrete pool and attached spa measures 11m x 2.5m with a varied depth that is fully tiled in Bisazza mosaics. Exclusive Pools had to create a pool that matched the high specifications of the luxury home and some of the pool walls even supported sections of the home. Stone plinths were included in the construction to act as stepping stones and lead to the side of the home and an attractive water feature. The pool and spa equipment is

all concealed at the lower end of the property and includes Hurlcon filters and pumps, a Chemigem, five LED underwater lights, a gas heater and Venturi jets in the spa. The cost of the award-winning display was \$91,000. Barrier Reef Pools also won the bronze award for their display pools at a new sales centre in Wangara. Each of seven display pools has been individually designed to give a wide selection to customers. Pools of different shapes and colours are on display with a variety of internal finishes and surroundings to give many alternatives in style and budget. The whole display centre is remote controlled for pools, spas and water features as well as lighting.

**The biggest pool has a black interior with mosaic waterline tiles and charcoal granite paving bordered with an insert of timber.**

The two Barrier Reef display centres are located at 378 South Street, O'Connor and 229 Gnaragara Road, Wangara. The Exclusive Pool display is part of a display home at 1B Page Street, Attadale.
